OVERVIEW

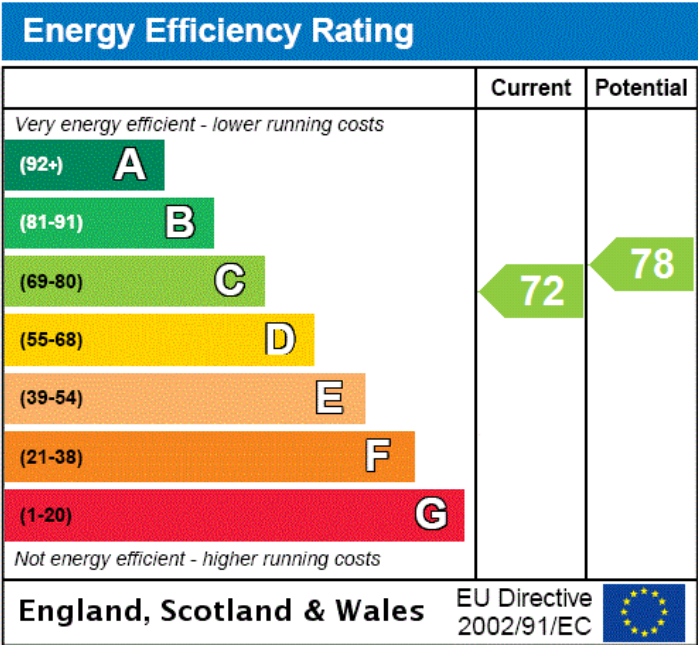

An exceptional, design-led residence of rare quality and scale, discreetly positioned in the heart of East Dulwich, with primary access via the more prestigious Ondine Road. This unique positioning offers both privacy and enhanced street presence, setting the tone for what is a truly standout home.

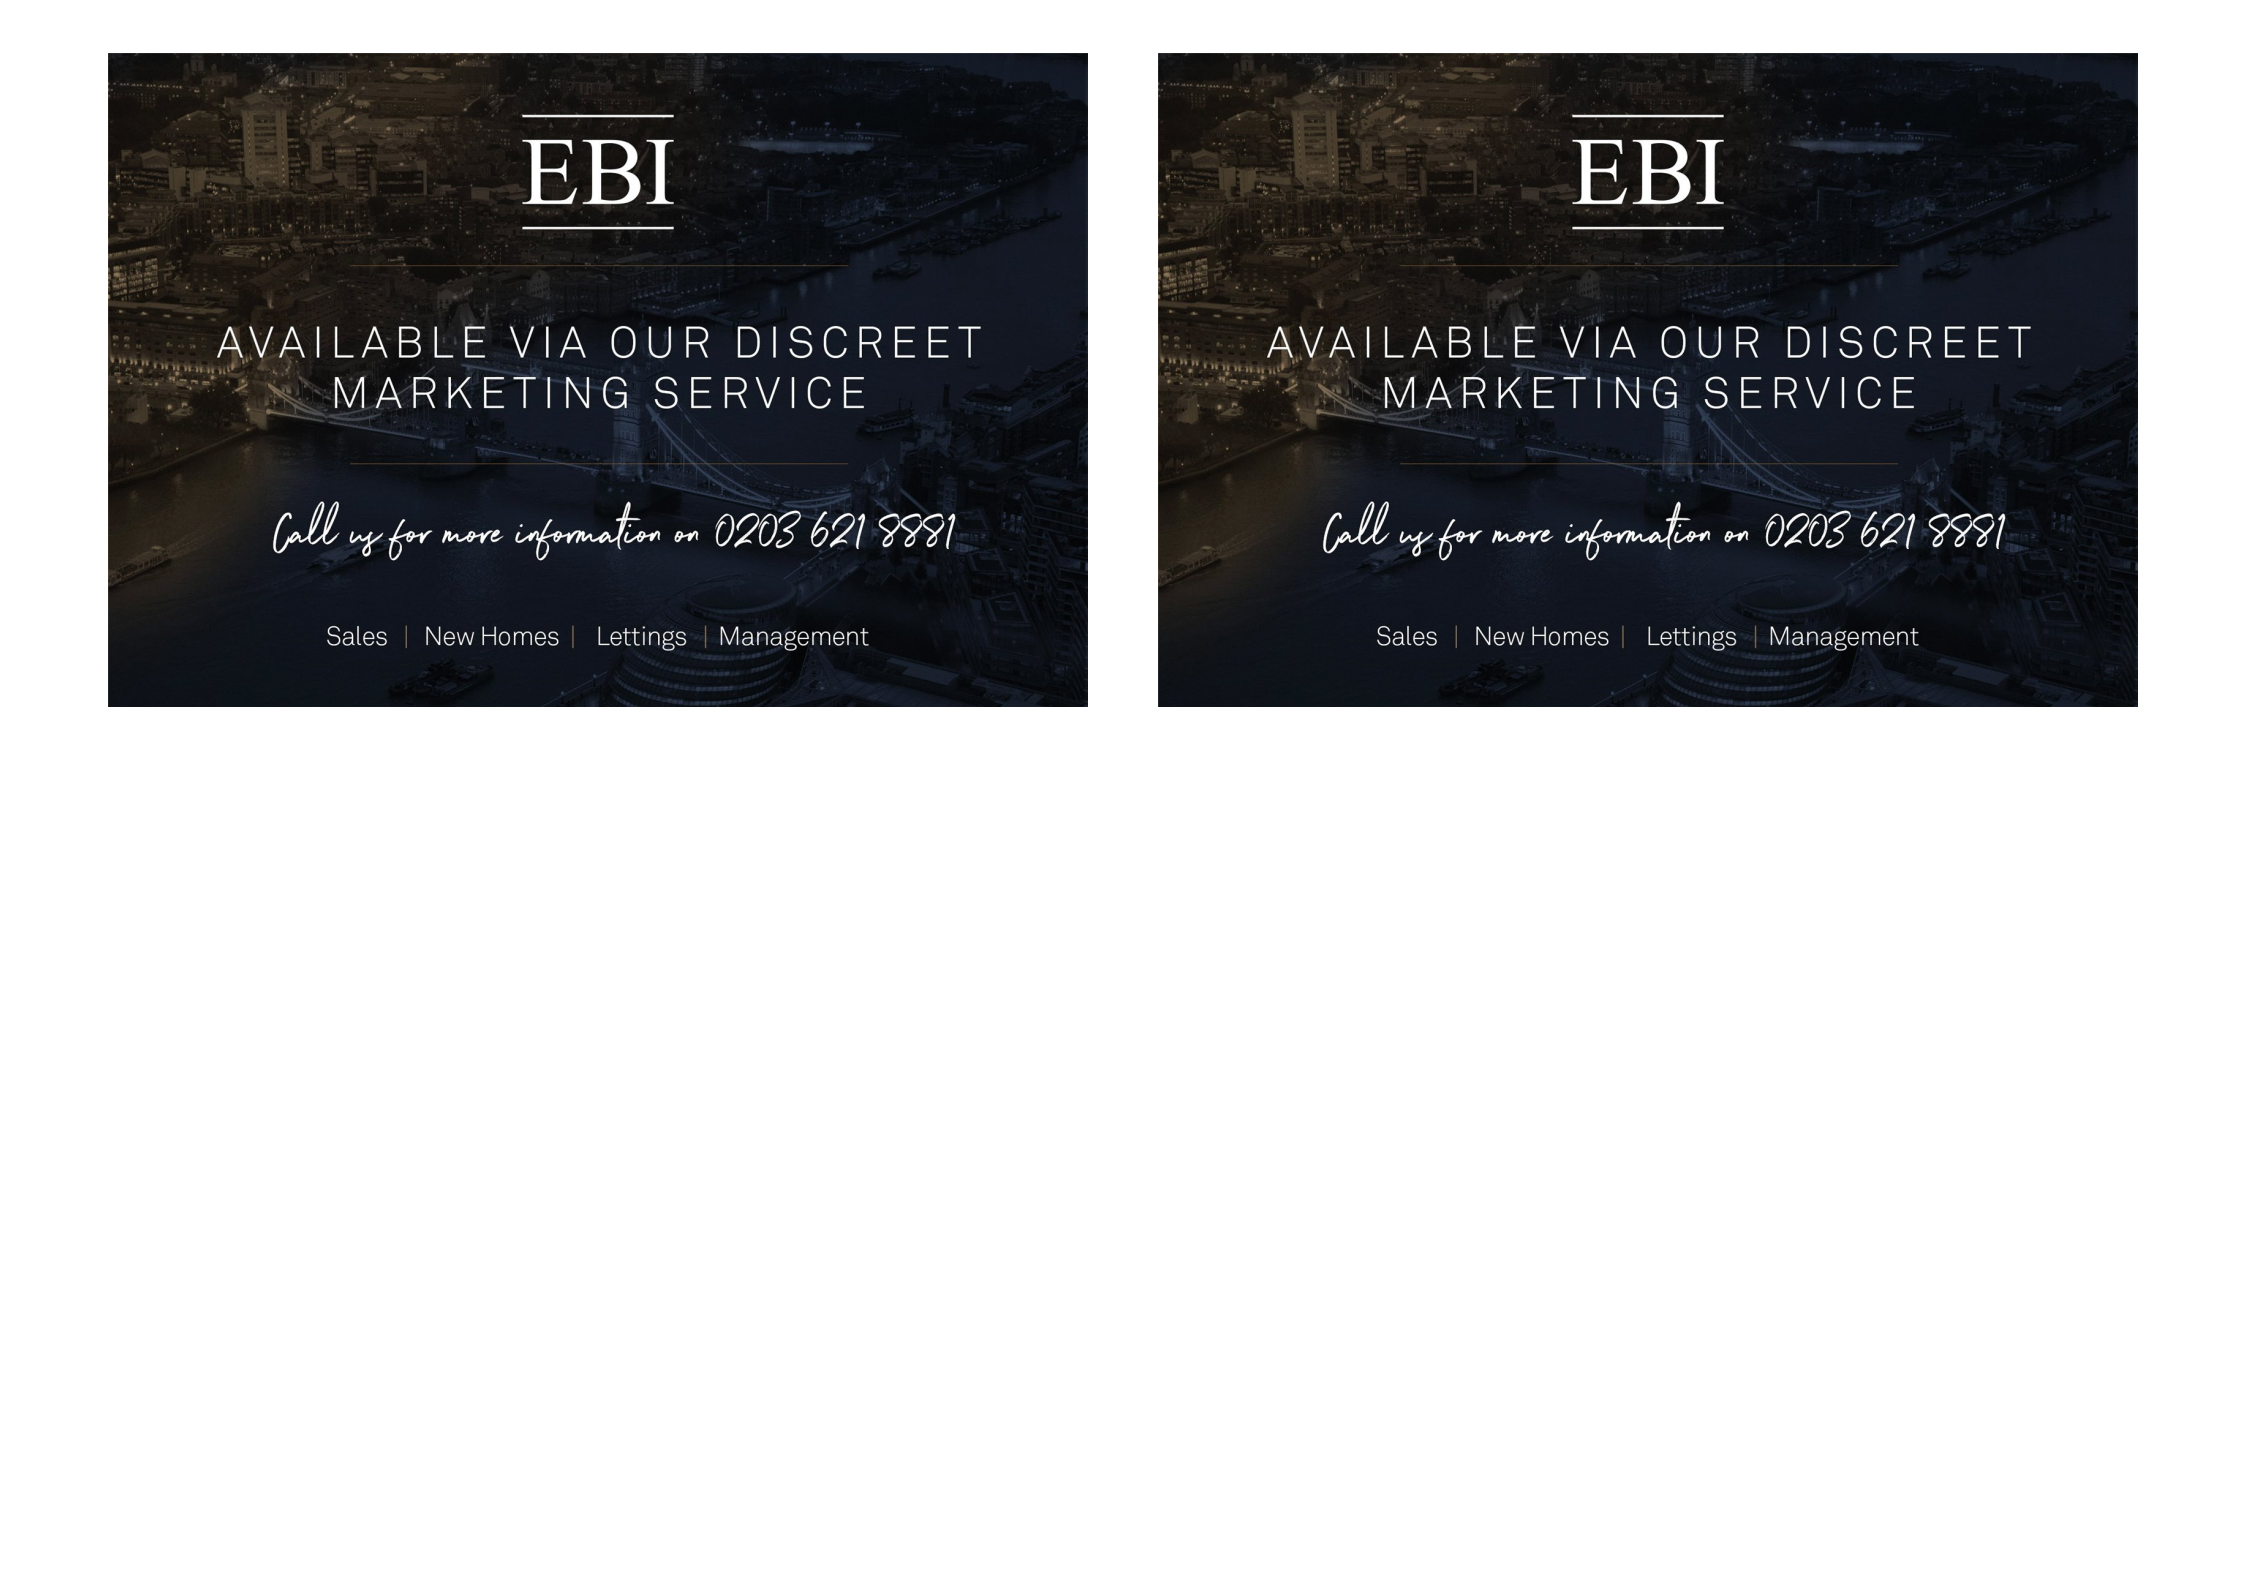

Set behind a sliding gated entrance from Ondine Road, this striking period residence immediately commands attention with its façade of exposed brickwork, ornate entrance detailing and balanced symmetry. The house is set back behind a walled front garden, offering secure off-street parking via a double-width electric gate. Mature planting including Olive trees and Silver Birch, combined with stonewashed walls, a white veranda and integrated night lighting, create a refined Mediterranean feel and a rare sense of calm on arrival.
